

Toyota Order to Delivery Time

1. Industry average 60 day order to delivery for Commercial pipeline models.
2. The most popular commercial models, equipment levels and color combinations are available in a virtual pipeline (scheduled unbuilt production).
3. Flexibility to change color and equipment levels with the vehicles in the pipeline (**possible restrictions may apply during model year build out**).
4. Customers have access to pipeline combinations on <http://fleet.toyota.com/> . Go to Resources/Commercial Pipeline for an updated list of models and options.
5. Confirmation of the estimated ETA should be available within 24-48 hours from order placement if a match in the pipeline is found.

Eligible Series as of 11/6/2014

Avalon	Sienna
Avalon Hybrid	Tundra 4x2
Camry	Tundra 4x4
Camry Hybrid	Venza
Corolla	
Highlander Gas – Limited Availability	
RAV4	

Emmediate Pool

1. Pipeline vehicles that are still available after they are built are available "as built".
2. To Purchase, a vehicle is selected rather than an order being placed.
3. Post Production Options such as "Carpeted floor mats" can be added.
4. Order-To-Delivery is typically 15-30 days (depending on distance from plant).
5. Customers have access to see availability on <http://fleet.toyota.com> . Go to Vehicles/Cars/Camry (or any series) and click on "click here to view" on upper center of page.
6. Call your FMC or dealer to purchase the vehicle.

Toyota North American Plants

San Antonio, TX	Tupelo, MS	Ontario, Canada	Princeton, IN	Georgetown, KY	Lafayette, IN	Baja, Mex
Tacoma	Corolla	Corolla	Highlander Gas Highlander Hybrid	Avalon Gas Avalon Hybrid	Camry Gas	Tacoma
Tundra		RAV4	Sequoia	Camry Gas Camry Hybrid		
			Sienna	Venza		

Note: Non-pipeline models and Japan built vehicles have a 90-120 Order-to-Delivery time depending on distance from the plant. Order with "Deliver this vehicle as soon as possible" (ASAP) to expedite the build and delivery.
