

Fleet Advantage

Delivery for Commercial & Government Fleets

Putting Your Fleet in the Driver's Seat

Toyota Fleet Advantage provides industry-leading vehicle delivery and other services for the drivers of Toyota Fleet vehicles.

Fleet customers (commercial, government, non-profit and utility) have high expectations of Toyota and prefer long-term relationships with professional Fleet Dealers across the country. This program was developed to meet those needs.

A COMMITMENT FROM TOYOTA AND OUR DEALERS

TFA Personnel

TFA dealerships have a **Fleet Manager** and **TFA Professionals** to support fleet drivers from delivery through turning in their vehicles. This provides a direct point of contact for drivers, as well as ease of use for Fleet Management Companies and Fleet customers.

Delivery

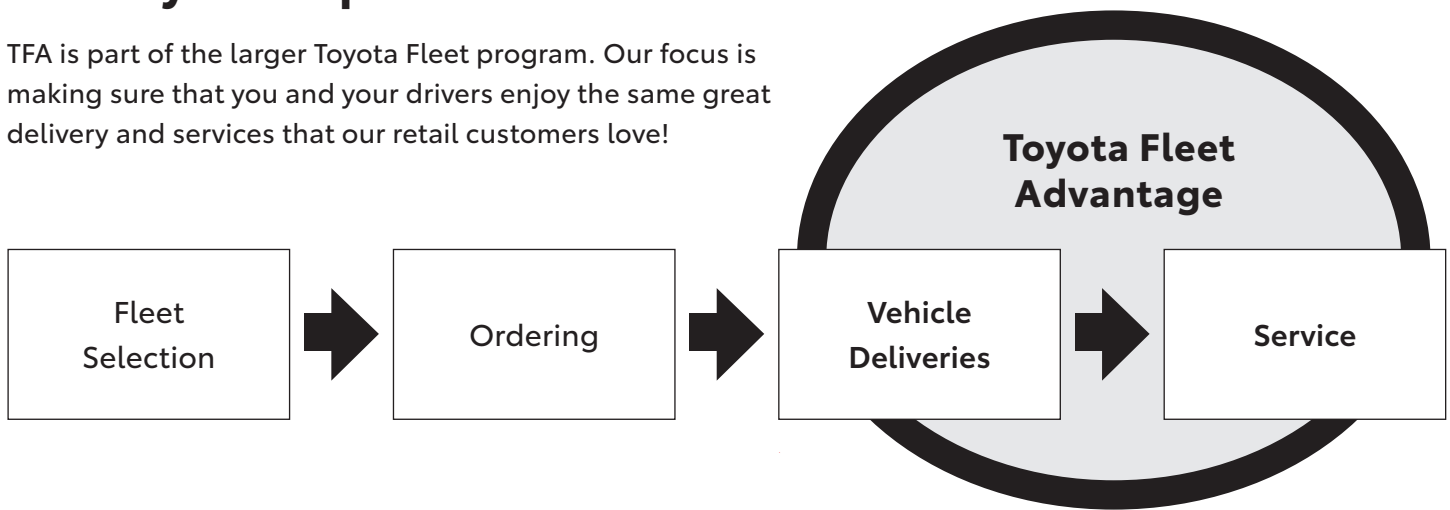

Your drivers will enjoy the same delivery experience that Toyota Dealers provide to our retail customers. That includes an inspected and high-quality vehicle, a demonstration of its features and technology, and assistance enrolling in appropriate telematics services.

Service

TFA Dealers provide maintenance, repair and other services for your fleet vehicles throughout the driving experience. Your drivers should receive the same level of service as retail customers — by factory-trained Technicians using Toyota Genuine parts and accessories.

The Toyota Experience for Your Fleet

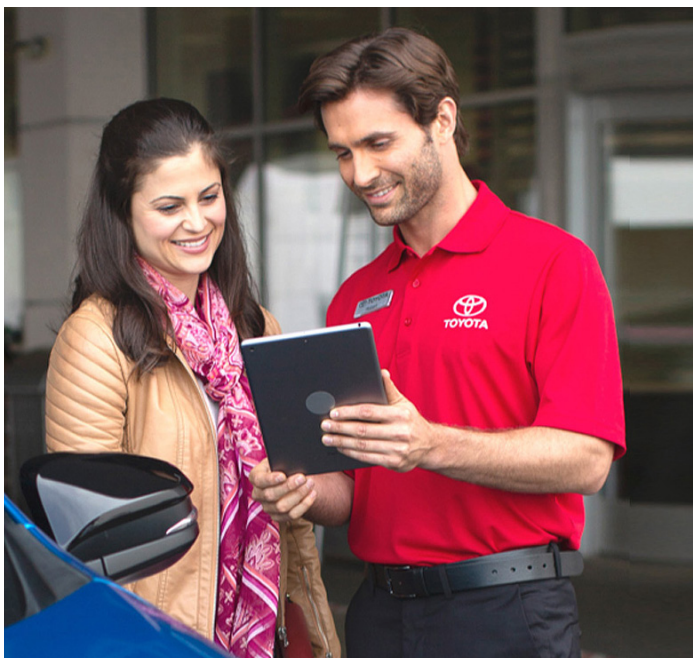

TFA is part of the larger Toyota Fleet program. Our focus is making sure that you and your drivers enjoy the same great delivery and services that our retail customers love!

BEYOND ZERO

Take Your Fleet BEYOND ZERO

You can include **hybrid and electric vehicles** in your fleet to help you promote and advance your organization's sustainability and other important goals. A Toyota Fleet Dealer can help you select the right mix of vehicles to meet everyone's needs.

GET MORE INFORMATION

We hope you'll select Toyota for your organization's fleet and enjoy the benefits of Toyota Fleet Advantage. Feel free to visit **fleet.TOYOTA.com** to learn more about the Fleet program, such as:

- Our electrified lineup
- Our commitment to your business
